

ROLES YOU ARE APPLYING FOR

- Jr Technical Officer
- Jr Graphics Officer
- Github: <https://github.com/Nidhis21>
- Drive: <https://drive.google.com/drive/folders/12bd242TKYLjzxHild-muRbZK7nlkAeap?usp=sharing>

WHY YOU ARE A PERFECT FIT FOR THE ROLE

I am a perfect fit for this role because I am eager to learn and grow. I want to develop my own model of an AI gallery cleaner, aiming to build it independently without relying too much on ChatGPT. I am also interested in exploring Computer Vision, for instance, in areas where hand gestures are converted into text.

Apart from my technical interests, I have experience handling various events and workshops through my involvement with NSS. Additionally, with my passion for design, I can contribute by creating posters and other materials for upcoming events.

I am excited about this opportunity to learn, contribute, and take on new challenges.

WHY YOU WANT TO JOIN AI COLEGION

I want to join AI Colegion because it gives me a platform to learn by participating. Being an AI-centric council, I believe it will help me gain more exposure, especially in the field I am interested in. I also believe that as much as I can contribute to AI Colegion, AI Colegion can contribute to my learning and growth as well.

SKILLS

- Languages: Python, SQL, JavaScript
- Frameworks and Libraries: PyTorch, Numpy
- Web Development: HTML5, CSS
- Database: MySQL
